As a customer of XM Satellite radio, I appreciate and enjoy the many channels of programming that they make available and the fact that programming is available over a wide geographic region. The recent addition of metropolitan traffic and weather is a very useful feature that I appreciate. I am willing to pay a reasonable subscription fee for these services since I find them of benefit. I respectfully urge you to reject the National Association of Broadcasters petition 04-160 as I do not believe it would be in the best interest of the public and it would prevent legitimate competition in this area.
Thank you for your consideration,

Sincerely,

Norman D. Smith
San Jose, CA
